UH Alert <uh-alert@hawaii.edu>
To: uh-alert@hawaii.edu

Aloha UH Manoa community,

Four students who live on campus have tested positive for COVID-19 and are now in isolation. Three of the students who tested positive live in the same residence hall. The four students have been moved off campus into quarantine along with their roommates, nine total, who are currently being monitored. Everyone who has been moved into isolation off campus is being cared for by the university. The contact tracing process is underway and the Hawaii Department of Health (DOH) has been notified.

The four students who tested positive have no in-person classes. The occupants of the two affected residence halls have been notified. The four rooms impacted have been appropriately closed, and the common bathrooms and areas in the building have been cleaned and disinfected, as recommended by the Centers for Disease Control and Prevention (CDC) and university COVID-19 guidelines. Student housing has been cleaning and disinfecting common areas daily since the start of the semester.

One of the students worked on campus, and the office where they work has been closed for seven days, per CDC and university guidance.

Anyone who tests positive for COVID-19 is not allowed to return to campus until they are cleared by a medical provider consistent with the standards of DOH and the CDC.

No further details can be shared as the privacy of the individuals involved must be respected. The campus is following all privacy and confidentiality laws, including the Health Insurance Portability and Accountability Act (HIPAA) and the Family Educational Rights and Privacy Act (FERPA).

Good morning Saturday

Are you greeting the day with Snoopy's energy and glee?

Do you feel more like the poor pug who just can't face being an adult today.

Perhaps it is better to just stay all wrapped up

Pick up your surfboard and let's ride the day.

Have a great day.

"Request, Sign, Grab, and Go" Service

The Library has implemented a new "Request, Sign, Grab and Go" service that allows UHM patrons to check out physical library items from Hamilton Library's collection that are eligible to be borrowed.

What is eligible to be borrowed?

Circulating physical items may be borrowed if materials are not available online through the library's electronic resources or through our current access arrangement with <u>HathiTrust</u>. Non-circulating items such as reference, periodical, microform or "Library Use Only" are not eligible to be borrowed.

How does it work?

As a UHM patron or East-West Center affiliate, log into OneSearch and submit a "Request Specific Copy" request for any items you would like to borrow. If the items are eligible to be borrowed, the Library staff will retrieve the item and will check it out to you. Please note, available items that you request will be checked out to your library account in advance.

In 3-4 business days, you will receive a "hold" notification for any eligible items you requested. Those items will be available for pick up the following business day in the library lobby.

Picking up your items

Come to the main entrance of Hamilton Library and show your validated UHM ID to the security guard, grab your items placed on tables by last name. Sign the accompanying printouts to acknowledge pick up, and place the printouts in the designated box. Items not picked up after 10 business days will be removed and checked back in.

You can return items anytime by placing them in the return bin outside Hamilton Library.

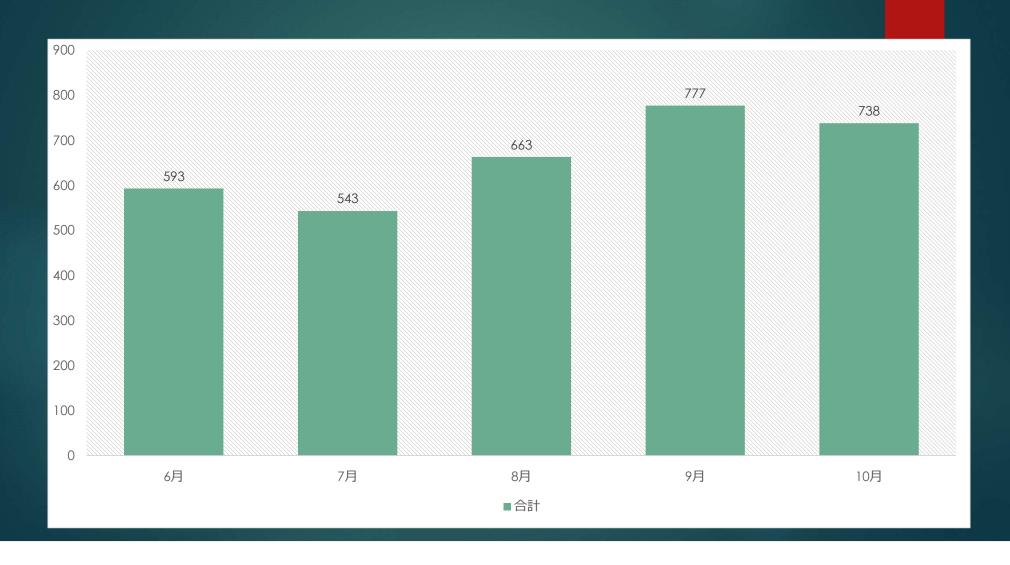

For more details on requesting items, please visit the Requesting Library items in OneSearch page.

What if I want to borrow an ineligible item?

If you request an item that is ineligible to be borrowed, the request will be canceled. You may be contacted by a member of the library staff with alternative titles or suggestions.

Ebook Central

Access your print books electronically

ProQuest's free Title Matching Fast service helps you match your print holdings to electronic titles without the hassle of searching yourself. All we need is a list of ISBNs and we will match those print books to titles available on Ebook Central in electronic format, regardless of where the print book was purchased.

Find the ebooks you need

Depending on the list size, we can help you match your print holdings in two business days. (Alma customers, simply give us permission and we can access your holdings without needing a list.)

Save on adding electronic to print holdings

Thanks to many of our publishing partners, we can offer you a 50% discount on the Ebook Central ebook when you own the print book.

Feel confident in supporting distance learning

ProQuest's Ebook Central platform is favored for overall performance and user preference according to a new study where researchers compared and measured user performance of common tasks on nine ebook platforms.
